## **Petrichor Announces the Close of Seed Funding Round**

TOLEDO, OH June 17<sup>th</sup> – Petrichor would like to announce the close of its first funding round. The funds went to the development of Cycle, a container as a service (CaaS) Platform.

The round closed on March 31<sup>st</sup> 2016, with a total investment of \$190,000. The convertible note round involved investments from CoreNetwork Fund and six individuals, including Petrichor's CEO Jake Warner.

Core Network is the only private and independent group of Angel Investors in Northwest Ohio. The firm was selected because of their focus on providing a formal network for their investee companies to engage. The network integrates community and sponsor support to in order to cultivate a higher likelihood of investee company success.

The first funding round provided the financial infusion to develop the second half of the Cycle Platform. Petrichor expects to launch Cycle during the second half of June 2016.

### **What is Cycle?**

More than just another container deployment tool, Cycle does it all. With features like geographic DNS load balancing, auto scaling and automated SSL certificates for all containers, Cycle makes it easier to build, scale, secure and monitor your applications all in one unified platform.

**CYCLE**  
SMARTER CONTAINERS, SIMPLER DEPLOYMENTS.

Using Cycle's Portal or API, easily import your containers from any Git or Docker repository then deploy to bare-metal servers around the world, all while monitoring the entire process as it happens in real-time.
